

DECLASSIFIED

SUBJECT: Daniel Okafor

CODENAME: **MARATHON**CLEARANCE: EYES ONLY · FILE NO: GC-██████ · STATUS: **ACTIVE & BELOVED**

■ Background

Subject claims to be "five minutes away." Analysis of 4 years of field data places actual arrival 22-40 minutes later, reliably bearing pastries as reparations. Recruitment into this friendship is judged irreversible.

Asset once ran an actual marathon "by accident," having registered for the 5K. Refused extraction at mile 19. Finished.

■ Field Observations

Communicates primarily in movie quotes delivered with total confidence and ~60% accuracy. Cannot pass a dog without providing a full verbal briefing to the dog. Maintains a spreadsheet ranking the city's tacos that intelligence services would classify as excessive.

■ Known Associates

One (1) long-suffering fantasy football league, of which subject is commissioner-for-life following an election held while everyone else was in the bathroom.

■ Assessment

Threat level: none. Loyalty level: absolute. Recommend continued association at maximum clearance. File prepared for his 30th birthday by parties who would do it all again.
